

CHANGBAISHAN CHIXI MIXED-USE

The Great Outdoors

Changbaishan Chixi Ski Resort is a great year-round outdoor lifestyle resort community because the design emphasizes the indoor/outdoor relationship with the Great Outdoors and supports, in style and planning, a resort lifestyle. A more relaxed resort life style and natural integration with the environment is reinforced with curvilinear road design that gives more viewing pleasure meandering through natural environments known to slow traffic. Resort Village design with scale and proportions most appropriate for pedestrians include food-and-beverage emphasis with al fresco dining adjacent to the Village Green and retail infill.
