

RADISSON BLU CHONGQING RESORT

Majestic View of the Mountains

Sitting on the hilltop, the hotel has a commanding view of the site. With a more than 180 degree view, the lobby lounge is situated strategically to take advantage of the main views – the cascading mountains, the small lake fronting it, and the distant, large lake at the entry of the resort. Below the lobby is the all-day dining and above it is the specialty restaurant; both share the same views of the lobby and lobby lounge. This resort includes 280 hotel rooms, 10 hotel villas and iconic wedding pavilion.
