

Sandra Bianka Vajcs, Dipl.-Ing., MBA

Principal

As a core member of FSC Architects, Sandra exhibits a strong balance between design and project management skills. As a designer, she possesses a wide variety of skills in conceptualizing, planning, 3-D modeling, and detailing. Her freehand illustration technique is advanced; she was previously employed as a drawing instructor at the Technical University of Munich, Germany. As a project manager, she plays a key role in all phases of design from project proposal to construction administration. Always ensuring efficient utilization of resources, she creates a working environment that allows out-of-the-box thinking while guaranteeing excellent project profitability. Fluent in German and English, Sandra is very accustomed to oversee and coordinate meetings in other parts of the world.

Sandra has an extensive background in residential, commercial and hospitality projects, including over 6 years experience in Germany. Prior to joining FSC Architects, she worked for more than 5 years for the renowned hospitality design firm WATG, where she designed and managed numerous hotel and resort projects around the world. With this outstanding blend of design talent and management skills, Sandra is an invaluable asset in helping FSC Architects deliver world-class projects to their international clients.
