

HUAFA ZHUHAI MIXED-USE

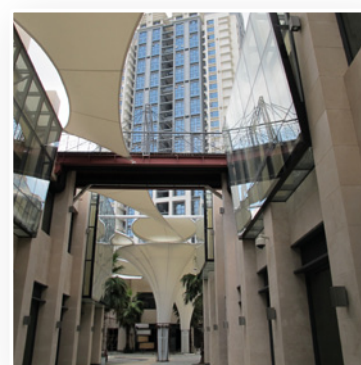

contemporary pedestrian-friendly community

Located near the border of Macau and Zhuhai by the Chang Sheng Bridge, this contemporary pedestrian-friendly community promotes a very dynamic lifestyle for its residents and guests. A park-like bar street along the promenade welcomes guests and residents alike to this modern 850,000 sqm urban destination. The entire development provides a resort-like environment where the structures are well placed around a people-friendly activity hub – the commercial center, exhibition center, shopping villages, entertainment, and rooftop clubhouse. The residential/serviced apartment towers anchor the two ends of the commercial center.
