

INTERCONTINENTAL XUZHOU

the valley of the kings

Xuzhou is an extraordinary place where Han Emperors ruled and now buried, lie deep underground in great splendour, besuited in gold and jade.

This new urban resort of 300 keys lies to the south of the city overlooking Yun Long lake. Viewed from a distance across the lake, the hotel is distinctly 'Han' in form and silhouette. The central lobby building owes much to traditional Han Style and proportion but with a modern twist. Elsewhere the design becomes more contemporary. The combination means the hotel 'belongs' to Xuzhou's cultural past whilst being unique, fresh and relevant to today's guest.
