

G CHARLTON HOTELS & RESORTS KUNMING

eternal spring

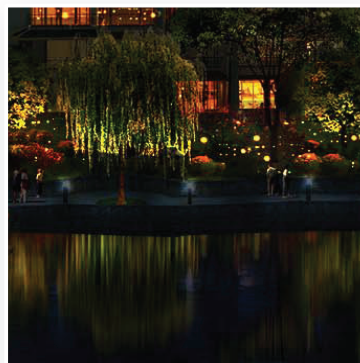

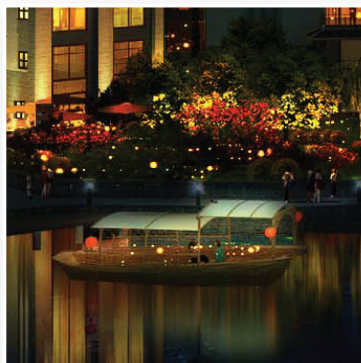

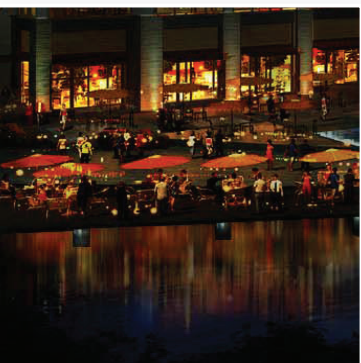

A natural hot spring on the site, the year-around moderate climate of eternal spring weather and the breathtaking panorama of Xi Shan laid the foundation for this relaxing resort.

Surrounded by a network of old canals this 225 key resort is built upon contemporary architecture with regional influences. It offers two individually themed and located restaurants, an in- and outdoor spa and gym, conference facilities, a roof top executive lounge and a private presidential villa.
