

HILTON LINZHI RESORT, TIBET

tibetan palace

Surrounded by majestic views of snowcapped mountains and the Brahmaputra river, this 230 room, five-star hotel sits on a hill like a Tibetan palace.

This iconic structure is loaded with public amenities such as two restaurants and private dining rooms, modest conference facilities, spa, indoor pool, fitness center, games room, cultural center, and stargazing tower. It stretches across the landscape with a palace-resembling expansiveness but is segmented into intimate courtyards. Existing ancient trees were purposely preserved by weaving the structures elegantly around them.
