

RENAISSANCE SANYA RESORT & SPA

palatial tropical resort - a new genre

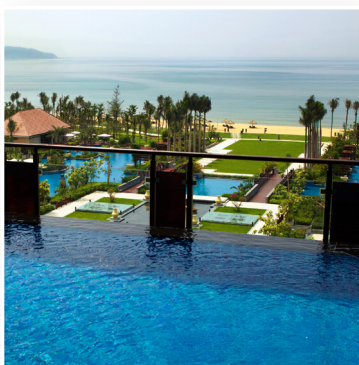

Inspired by Sanya's warm tropical environment, the fishing fleets of Haitang Bay's past and the client's desire for a grand creation resulted in this palatial tropical resort: unique to Sanya and perhaps redefining its genre. Unmatched is the balance between the sense of a palace and a warm, inviting resort. It creates a relaxed luxury that is glamorous but not overly ostentatious.

Guests choose from 507 hotel rooms, 90 suites and 10 hotel villas and can enjoy the seven restaurants and bars, three swimming pools and fitness and spa facilities in a lush tropical courtyard setting.
