

XIAMEN MARRIOTT HOTEL & CONFERENCE CENTRE

The Top Tier

The design concept is that of a Grand Seaside Hotel, formal and symmetrical yet relaxed with architectural influences from China and its Pacific Ocean neighbour's in Southeast Asia and Hawaii. The approach to the hotel porte-cochere is via a winding sloping drive that creates isolation from the public roads whilst exaggerating the impressive feel of the grand lobby and entrance. With three-hundred guestrooms and thirteen hotel villas served by a large conference center this hotel is equally alluring to the business guest as well as the leisure traveller.
